In either case, the Contractor shall notify JPL when the monies are withheld.
- (4) The Contractor agrees to incorporate the substance of this Article, including this subparagraph (c)(4), in all subcontracts under this Contract.

- (2) The act also requires Contractors to furnish a disclosure if any funds other than Federal appropriated funds (including profit or fee received under a covered Federal transaction) have been paid, or will be paid, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with a Federal contract, grant, loan, or cooperative agreement.
- (3) The prohibitions of the Act do not apply under the following conditions:
 - (A) Agency and legislative liaison by own employees.
 - (i) The prohibition on the use of appropriated funds, in subparagraph (b)(1) of this Article, does not apply in the case of a payment of reasonable compensation made to an officer or employee of a person requesting or receiving a covered Federal action if the payment is for agency and legislative liaison activities not directly related to a covered Federal action.
 - (ii) For purposes of paragraph (b)(3)(A)(i) of this Article, providing any information specifically requested by an agency or Congress is permitted at any time.
 - (iii) The following agency and legislative liaison activities are permitted at any time where they are not related to a specific solicitation for any covered Federal action:
 - a. Discussing with an agency the qualities and characteristics (including individual demonstrations) of any person's products or services, conditions or terms of sale, and service capabilities.
 - b. Technical discussions and other activities regarding the application to adaptation of the person's products or services for an agency's use.
 - (iv) The following agency and legislative liaison activities are permitted where they are prior to formal solicitation of any covered Federal action -
 - a. Providing any information not specifically requested but necessary for an agency to make an informed decision about initiation of a covered Federal action;
 - b. Technical discussions regarding preparation of an unsolicited proposal prior to its official submission; and
 - c. Capability presentations by persons seeking awards from an agency pursuant to the provisions of the Small Business Act, as amended by Pub. L. 95-507, and subsequent amendments.
 - (v) Only those services expressly authorized by paragraph (b)(3)(A)(i) are permitted under this Section (b)(3)(A).

(B) Professional and technical services.

- (i) The prohibition on the use of appropriated funds, in subparagraph (b)(1) of this Article, does not apply in the case of :
 - a. A payment of reasonable compensation made to an officer or employee of a person requesting or receiving a covered Federal action or an extension, continuation, renewal, amendment, or modification of a covered Federal action, if payment is for professional or technical services rendered directly in the preparation, submission, or negotiation of any bid, proposal, or application for that Federal action or for meeting requirements imposed by or pursuant to law as a condition for receiving that Federal action.
 - b. Any reasonable payment to a person other than an officer or employee of a person requesting or receiving a covered Federal action or an extension, continuation, renewal, amendment, or modification of a covered Federal action if the payment is for professional or technical services rendered directly in the preparation, submission, or negotiation of any bid, proposal, or application for that Federal action or for meeting requirements imposed by or pursuant to law as a condition for receiving that Federal action. Persons other than officers or employees of a person requesting or receiving a covered Federal action include consultants and trade associations.
- (ii) For purposes of paragraph (b)(3)(B)(i) of this Article, "professional and technical services" shall be limited to advice and analysis directly applying any professional or technical discipline. For example, drafting of a legal document accompanying a bid or proposal by a lawyer is allowable. Similarly, technical advice provided by an engineer on the performance or operational capability of a piece of equipment rendered directly in the negotiation of equipment rendered directly in the negotiation of a contract is allowable. However, communications with the intent to influence made by a professional (such as a licensed lawyer) or a technical person (such as a licensed accountant) are not allowable under this section unless they provide advice and analysis directly applying their professional or technical expertise and unless the advice or analysis is rendered directly and solely in the preparation, submission or negotiation of a covered Federal action. Thus, for example, communications with the intent to influence made by a lawyer that do not provide legal advice or analysis directly and solely related to the legal aspects of his or her client's proposal, but generally advocate one proposal over another are not allowable under this section because the lawyer is not providing professional legal services. Similarly, communications with the intent to influence made by an engineer providing an engineering analysis prior to the preparation or submission of a bid or proposal are not allowable under this section since the engineer is providing technical services but not directly in the preparation, submission or negotiation of a covered Federal action.
- (iii) Requirements imposed by or pursuant to law as a condition for receiving a covered Federal award include those required by law or regulation and any other requirements in the actual award documents.
- (iv) Only those services expressly authorized by paragraphs (b)(3)(B)(i)a. and b. of Section (b)(3)(B) are permitted under this Section.
- (v) The reporting requirements of FAR 3.803(a) shall not apply with respect to payments of reasonable compensation made to regularly employed officers or employees of a person.

(c) Disclosure.

- (1) The Contractor who requests or receives from an agency a Federal contract shall file with that agency a disclosure form, OMB standard for LLL, Disclosure of Lobbying Activities, if such person has made or has agreed to make any payment using nonappropriated funds (to *include* profits from any covered Federal action), which would be prohibited under subparagraph (b)(1) of this Article, if paid for with appropriated funds.

- (2) The Contractor shall file a disclosure form at the end of each calendar quarter in which there occurs any event that materially affects the accuracy of the information contained in any disclosure form previously filed by such person under subparagraph (c)(1) of this Article. An event that materially affects the accuracy of the information reported includes -
 - (A) A cumulative increase of \$25,000 or more in the amount paid or expected to be paid for influencing or attempting to influence a covered Federal action; or
 - (B) A change in the person(s) or individual(s) influencing or attempting to influence a covered Federal action; or
 - (C) A change in the officer(s), employee(s), or Member(s) contacted to influence or attempt to influence a covered Federal action.
- (3) The Contractor shall submit and require the submittal of a certification, and if required, a disclosure form by any person who requests or receives any subcontract exceeding \$100,000 under the Federal contract.
- (4) All contractor and subcontractor disclosure forms (but not certifications) shall be forwarded from tier to tier until received by the JPL negotiator for JPL, the prime Contractor. The Contractor shall submit all disclosures to the JPL negotiator (for provision to the Contracting Officer) at the end of the calendar quarter in which the disclosure form is submitted by the subcontractor. Each subcontractor certification shall be retained in the subcontract file of the awarding contractor.
- (d) Agreement. The Contractor agrees not to make any payment prohibited by this Article.
- (e) Penalties.
 - (1) Any person who makes an expenditure prohibited under paragraph (a) of this Article or who fails to file or amend the disclosure form to be filed or amended by paragraph (b) of this Article shall be subject to civil penalties as provided for by 31 U.S.C. 1352. An imposition of a civil penalty does not prevent the Government from seeking any other remedy that may be applicable.
 - (2) Contractors may rely without liability on the representation made by their subcontractors in the certification and disclosure form.
- (f) Cost Allowability. Nothing in this Article makes allowable or reasonable any costs which would otherwise be unallowable or unreasonable. Conversely, costs made specifically unallowable by the requirements in this Article will not be made allowable under any other Article.

ARTICLE GP-18. CONTRACTOR AND SUBCONTRACTOR COST OR PRICING DATA

(This Article is applicable if either the basic Contract or any modification exceeds \$500,000.)

- (a) Contractor Cost or Pricing Data. Whenever the price of the basic Contract, or the negotiated price of any change, or other modification to this Contract is expected to exceed \$500,000, the Contractor agrees to furnish the Institute certified cost or pricing data, using the JPL certificate, form JPL 2496, or approved equivalent unless the Institute determines that the price is based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or that the prices are set by law or regulation.
- (b) Subcontractor Cost or Pricing Data.
 - (1) Before awarding any subcontract expected to exceed \$500,000 when entered into, or before pricing any subcontract modification involving a pricing adjustment expected to exceed \$500,000, the Contractor shall require the subcontractor to submit cost or pricing data (actually or by specific identification in writing), unless the price is:
 - (A) Based on adequate price competition;

- (B) Based on established catalog or market prices of commercial items sold in substantial quantities to the general public; or
 - (C) Set by law or regulation.
- (2) The requirement for obtaining certified cost or pricing data with respect to any subcontract change or other modification does not apply to any subcontract change or modification, at any tier, where this Contract is a firm fixed-price or fixed-price with escalation contract unless such change or other modification results from a Contract change or other modification to this Contract, nor does it apply to a subcontract change or other modification, at any tier, where this Contract is not firm fixed price or firm fixed-price with escalation, unless the price for such change or modification becomes reimbursable under this Contract.
 - (3) The Contractor shall require the subcontractor to certify in substantially the form prescribed in FAR 15.804-4, and any corresponding implementing or supplementing provisions in the NFS, that, to the best of its knowledge and belief, the data submitted under subparagraph (b)(1) above were accurate, complete, and current as of the date of agreement on the negotiated price of the subcontract or subcontract modification.
 - (4) In each subcontract that exceeds \$500,000 when entered into, the Contractor shall insert either:
 - (A) The substance of this Article, including this paragraph (4), if paragraph (b)(1) above requires submission of cost or pricing data for the subcontract; or
 - (B) The substance of the clause at FAR 52.215-25, "Subcontractor Cost or Pricing Data - Modifications," including any corresponding implementing or supplementing provisions in the NFS.
- (c) Price Reduction for Defective Cost or Pricing Data.
- (1) If any price, including profit or fee, negotiated in connection with this Contract, or any cost reimbursable under this Contract, was increased by any significant amount because (i) the Contractor or a subcontractor furnished cost or pricing data that were not complete, accurate, and current as certified in its Certificate of Current Cost or Pricing Data, (ii) a subcontractor or prospective subcontractor furnished the Contractor cost or pricing data that were not complete, accurate, and current as certified in the Contractor's Certificate of Current Cost or Pricing Data, or (iii) any of these parties furnished data of any description that were not accurate, the price or cost shall be reduced accordingly and the Contract shall be modified to reflect the reduction.
 - (2) Any reduction in the Contract price under paragraph (1) above due to defective data from a prospective subcontractor that was not subsequently awarded the subcontract shall be limited to the amount, plus applicable overhead and profit markup, by which (i) the actual subcontract or (ii) the actual cost to the Contractor, if there was no subcontract, was less than the prospective subcontract cost estimate submitted by the Contractor; provided, that the actual subcontract price was not itself affected by defective cost or pricing data.
 - (3) (A) If the Contracting Officer determines under paragraph (1) of this Article that a price or cost reduction should be made, the Contractor agrees not to raise the following matters as a defense:
 - (i) The Contractor or subcontractor was a sole source supplier or otherwise was in a superior bargaining position and thus the price of the Contract would not have been modified even if accurate, complete, and current cost or pricing data had been submitted.
 - (ii) The Institute should have known that the cost or pricing data in issue were defective even though the Contractor or subcontractor took no affirmative action to bring the character of the data to the attention of JPL.
 - (iii) The Contract was based on an agreement about the total cost of the Contract and there was no agreement about the cost of each item procured under the Contract.
 - (iv) The Contractor or subcontractor did not submit a Certificate of Current Cost or Pricing Data.

- (B) (i) Except as prohibited by subdivision (c)(3)(B)(ii) of this Article, an offset in an amount determined appropriate by the Contracting Officer based upon the facts shall be allowed against the amount of a Contract price reduction if:
 - a. The Contractor certifies to the Contracting Officer that, to the best of the Contractor's knowledge and belief, the Contractor is entitled to the offset in the amount requested; and
 - b. The Contractor proves that the cost or pricing data were available before the date of agreement on the price of the Contract (or price of the modification) and that the data were not submitted before such date.
- (ii) An offset shall not be allowed if:
 - a. The understated data was known by the Contractor to be understated when the Certificate of Current Cost or Pricing Data was signed; or
 - b. The Government proves that the facts demonstrate that the Contract price would not have increased in the amount to be offset even if the available data had been submitted before the date of agreement on price.
- (4) In the event of a disagreement between the Contracting Officer and the Contractor with respect to a question of fact involved in the Contracting Officer's determination to reduce the price of this Contract, the Contractor may, subject to the prior approval of the Institute, which approval will not be unreasonably withheld, process such disagreement as a dispute to the extent that it may be entitled to do so under the provisions of the Prime Contract.
- (d) Examination of Records. For purposes of verifying that certified cost or pricing data required to be submitted in conjunction with the negotiation of this Contract or change or modification thereto, or otherwise pursuant to the provisions of this Article, were accurate, complete, and current, the Contracting Officer of the Prime Contract, or authorized representatives, shall - until the expiration of three years from the date of final payment under this Contract or of the time periods specified in FAR subpart 4.7 and any corresponding implementing or supplementing provisions in the NFS, whichever expires earlier - have the right to examine those books, records, documents, papers and other supporting data which involve transactions related to this Contract or which will permit adequate evaluation of the cost or pricing data submitted, along with the computations and projections used therein. The rights herein are in addition to those contained in any other provision of this Contract dealing with records, audit and records, and examination of records.
- (e) If any reduction in the Contract price under this Article reduces the price of items for which payment was made prior to the date of the modification reflecting the price reduction, the Contractor shall be liable to and shall indemnify the Institute for costs incurred by the Institute involved in repayments to the Government resulting from the Contractor's defective pricing including simple interest on the amount of such overpayment to be computed from the date(s) of overpayment to the Contractor to the date the Government is repaid by the Institute at the applicable underpayment rate effective for each quarter prescribed by the Secretary of the Treasury under 26 U.S.C. 6621(a)(2).

ARTICLE GP-19. INTEGRITY OF UNIT PRICES

(This Article is applicable if the initial Contract price exceeds the small purchase limitation in FAR Part 13, unless the Contract is for services where supplies are not required, construction or architect-engineer services, utility services, or petroleum products.)

- (a) Any proposal submitted for the negotiation of prices for items of supplies shall distribute costs within contracts on a basis that ensures that unit prices are in proportion to the items' base cost (e.g., manufacturing or acquisition costs). Any method of distributing costs to line items that distorts unit prices shall not be used. For example, distributing costs equally among line items is not acceptable except when there is little or no variation in base cost. Nothing in this paragraph requires submission of cost or pricing data not otherwise required by law or regulation.

- (b) The requirement in paragraph (a) of this Article does not apply to any contract or subcontract item of supply for which the unit price is, or is based on, an established catalog or market price for a commercial item sold in substantial quantities to the general public. A price is based on a catalog or market price only if the item being purchased is sufficiently similar to the catalog or market price commercial item to ensure that any difference in price can be identified and justified without resort to cost analysis.
- (c) The Contractor shall also identify those supplies which it will not manufacture or to which it will not contribute significant value, when requested by the JPL Negotiator. However, this information shall not be required for commercial items sold in substantial quantities to the general public when the price is, or is based on, established catalog or market prices.
- (d) The Contractor shall insert the substance of this Article, less paragraph (c), in all subcontracts.

ARTICLE GP-20. AUDIT-NEGOTIATION

- (a) Examination of Costs. If this is a cost-reimbursement, incentive, time-and-materials, labor-hour, or price-redeterminable Contract, or any combination of these, the Contractor shall maintain - and the Contracting Officer or representatives of the Contracting Officer shall have the right to examine and audit - books, records, documents, and other evidence and accounting procedures and practices, sufficient to reflect properly all costs claimed to have been incurred or anticipated to be incurred in performing this Contract. This right of examination shall include inspection at all reasonable times of the Contractor's plants, or parts of them, engaged in performing the Contract.
- (b) Cost or Pricing Data. If, pursuant to law, the Contractor has been required to submit cost or pricing data in connection with pricing this Contract or any modification to this Contract, the Contracting Officer or representatives of the Contracting Officer who are employees of the Government shall have the right to examine and audit all books, records, documents, and other data of the Contractor (including computations and projections) related to negotiating, pricing, or performing the Contract or Modification, in order to evaluate the accuracy, completeness, and currency of the cost or pricing data. The right of examination shall extend to all documents necessary to permit adequate evaluation of the cost or pricing data submitted, along with the computations and projections used.
- (c) Reports. If the Contractor is required to furnish cost, funding, or performance reports, the Contracting Officer or representatives of the Contracting Officer who are employees of the Government shall have the right to examine and audit books, records, other documents, and supporting materials, for the purpose of evaluating (i) the effectiveness of the Contractor's policies and procedures to produce data compatible with the objectives of these reports and (ii) the data reported.
- (d) Availability. The Contractor shall make available at its office at all reasonable times the materials described in paragraphs (a) and (b) above, for examination, audit, or reproduction, until three years after final payment under this Contract, or for any shorter period specified in Subpart 4.7, Contractor Records Retention, of FAR and any corresponding implementing or supplementing provisions in the NFS, or for any longer period required by statute or by other Article of this Contract. In addition:
 - (1) If this Contract is completely or partially terminated, the records relating to the work terminated shall be made available for three years after any resulting final termination settlement; and
 - (2) Records relating to appeals under the Disputes clause of the prime contract or if this Contract contains a "Disputes" Article, to appeals under such Article, or to litigation or the settlement of claims arising under or relating to this Contract, shall be made available until such appeals, litigation, or claims are disposed of.
- (e) Except as otherwise provided in FAR Subpart 4.7, Contractor Records Retention, and any corresponding implementing or supplementing provisions in the NFS, the Contractor may transfer computer data in machine readable form from one reliable computer medium to another. The Contractor's computer data retention and transfer procedures shall maintain the integrity, reliability, and security of the original data. The Contractor's choice of form or type of materials described in paragraphs (a), (b), and (c) of this Article affects neither the Contractor's obligations nor the Government's rights under this Article.

- (f) The Contractor shall insert all of the provisions of this Article, including this paragraph (f), in all subcontracts under this Contract which are over the small purchase limitation in FAR Part 13, altering the Article only as necessary to identify properly the contracting parties and the Contracting Officer under the Government prime contract.
- (g) If this Contract is a cost-reimbursement contract with an educational or other nonprofit institution, the provisions of OMB Circular No. A-133, "Audits of Institutions of Higher Learning and Other Nonprofit Institutions," apply to this Contract.

ARTICLE GP-21. EXAMINATION OF RECORDS BY COMPTROLLER GENERAL

- (a) This Article does not apply if this Contract does not exceed the FAR Part 13 small purchase limitation and does not apply if this Contract is for public utility services at rates established to apply uniformly to the public, plus any applicable reasonable connection charge.
- (b) The Comptroller General of the United States or a duly authorized representative from the General Accounting Office shall, until three years after final payment under this Contract or for any shorter period specified in FAR Subpart 4.7, Contractor Records Retention, and any corresponding implementing or supplementing provisions in the NFS, have access to and the right to examine any of the Contractor's directly pertinent books, documents, papers, or other records involving transactions related to this Contract.
- (c) The periods of access and examination in paragraph (b) above for records relating to (i) appeals under the "Disputes" Article of the Government prime contract, or if this Contract contains a "Disputes" Article, to appeals under such Article, (ii) litigation or settlement of claims arising from the performance of this Contract, or (iii) costs and expenses of this Contract to which the Comptroller General or a duly authorized representative from the General Accounting Office has taken exception shall continue until such appeals, litigation, claims, or exceptions are disposed of.

ARTICLE GP-22. PROHIBITION OF CONTRACTOR USE OF PRIVATELY OWNED AIRCRAFT IN CONTRACT PERFORMANCE

The Contractor, its employees, agents and subcontractors, shall not use privately owned (noncommercial) aircraft in the performance of this Contract without prior approval of JPL. Any request for approval to use privately owned aircraft must include a certificate of insurance as evidence that the Contractor has in effect Aircraft Liability Insurance coverage of not less than \$5,000,000 for all deaths, injuries and property damage arising from one accident or occurrence. The Contractor shall include this provision in any subcontract involving travel subject to JPL approval.

ARTICLE GP-23. ELECTRICAL EQUIPMENT ACQUISITION

(This Article is applicable if the Contract involves acquisition of off-the-shelf electrical equipment for delivery to or use by JPL or its designees.)

The electrical equipment being provided by the Contractor under this Contract shall be listed by Underwriters Laboratory, Factory Mutual Insurance Association, Canadian Standards Association, or similar organization of recognized standing. In the event that the equipment does not carry an appropriate approval, the individual components making up the item must be listed. Proof of listing shall be provided with delivery of the equipment in the form of accompanying data or labels. Any item not conforming to these requirements may be returned to the Contractor at the Contractor's expense. The Contractor agrees to require subcontractors, if any, which supply electrical equipment for delivery to or use by JPL or its designees to comply with this Article.

ARTICLE GP-24. HAZARDOUS MATERIAL IDENTIFICATION AND MATERIAL SAFETY DATA

(This Article applies if any hazardous materials as defined in paragraph (a) below are to be delivered under this Contract.)

- (a) Hazardous material, as used in this Article includes any material defined as hazardous under the latest version of Federal Standard No. 313 (including revisions adopted during the term of the Contract).

- (b) The Offeror must list any hazardous material, as defined in paragraph (a) of this Article, to be delivered under this Contract. The hazardous material shall be properly identified and include any applicable identification number, such as National Stock Number or Special Item Number. This information shall also be included on the Material Safety Data Sheet submitted under this Contract. The following format will be used:

Material (If none, insert "None")	Identification No.
_____	_____
_____	_____
_____	_____

- (c) The apparently successful offeror, by acceptance of the Contract, certifies that the list submitted in accordance with paragraph (b) of this Article is complete. This list must be updated during performance of the contract whenever the Contractor determines that any other material to be delivered under this Contract is hazardous.
- (d) The apparently successful offeror agrees to submit, for each item as required prior to award, a Material Safety Data Sheet, meeting the requirements of 29 CFR 1910.1200(g) and the latest version of Federal Standard No. 313, for all hazardous material identified in accordance with paragraph (b) of this Article. Data shall be submitted in accordance with Federal Standard No. 313, whether or not the apparently successful offeror is the actual manufacturer of these items. Failure to submit the Material Safety Data Sheet prior to award may result in the apparently successful offeror being considered nonresponsible and ineligible for award.
- (e) If, after award, there is a change in the composition of the item(s) or a revision to Federal Standard No. 313, which renders incomplete or inaccurate the data submitted under paragraph (d) of this Article or the certification submitted under paragraph (c) of this Article, the Contractor shall promptly notify the JPL Negotiator and resubmit the data.
- (f) Neither the requirements of this Article nor any act or failure to act by the Government or JPL shall relieve the Contractor of any responsibility or liability for the safety of JPL, Government, or other Contractor, or subcontractor personnel or property.
- (g) Nothing contained in this Article shall relieve the Contractor from complying with applicable Federal, State, and local laws, codes, ordinances, and regulations (including the obtaining of licenses and permits) in connection with hazardous material.
- (h) The Government's and JPL's rights in data furnished under this Contract with respect to hazardous material are as follows:
- (1) To use, duplicate and disclose any data to which this Article is applicable. The purposes of this right are to:
 - (A) Apprise personnel of the hazards to which they may be exposed in using, handling, packaging, transporting, or disposing of hazardous materials;
 - (B) Obtain medical treatment for those affected by the material; and
 - (C) Have others use, duplicate, and disclose the data for the Government and JPL for these purposes.
 - (2) To use, duplicate, and disclose data furnished under this Article, in accordance with subparagraph (h)(1) of this Article, in precedence over any other of this Contract providing for rights in data.
 - (3) The Government and JPL are not precluded from using similar or identical data acquired from other sources.
- (i) Except as provided in paragraph (i)(2), the Contractor shall prepare and submit a sufficient number of Material Safety Data Sheets (MSDSs), meeting the requirements of 29 CFR 1910.1200(g) and the latest version of Federal Standard No. 313, for all hazardous materials identified in paragraph (b) of this Article.

- (1) For items shipped to consignees, the Contractor shall include a copy of the MSDS with the packing list or other suitable shipping document which accompanies each shipment. Alternatively, the Contractor is permitted to mail MSDSs to consignees in advance of receipt of shipments by consignees, if authorized in writing by the cognizant JPL Negotiator..
- (2) For items shipped to consignees identified by mailing address as agency depots, distribution centers or customer supply centers, the Contractor shall provide one copy of the MSDSs in or on each shipping container. If affixed to the outside of each container, the MSDS must be placed in a weather resistant envelope.

ARTICLE GP-25. NOTICE OF RADIOACTIVE MATERIALS

(This Article is applicable only if this Contract is for radioactive materials as defined in paragraph (a) of this provision.)

- (a) The Contractor shall notify the JPL Negotiator or designee, in writing, 30 days prior to the delivery of, or prior to completion of any servicing required by this Contract of, items containing either (i) radioactive material requiring specific licensing under the regulations issued pursuant to the Atomic Energy Act of 1954, as amended, as set forth in Title 10 of the Code of Federal Regulations, in effect on the date of this contract, or (ii) other radioactive material not requiring specific licensing in which the specific activity is greater than 0.002 microcuries per gram or the activity per item equals or exceeds 0.01 microcuries. Such notice shall specify the part or parts of the items which contain radioactive materials, a description of the materials, the name and activity of the isotope, the manufacturer of the materials, and any other information known to the Contractor which will put users of the items on notice as to the hazards involved (OMB No. 9000-0107).
- (b) If there has been no change affecting the quantity of activity, or the characteristics and composition of the radioactive material from deliveries under this contract or prior contracts, the Contractor may request that the JPL Negotiator or designee waive the notice requirement in paragraph (a) of this Article. Any such request shall:
 - (1) Be submitted in writing;
 - (2) Contain a certification that the quantity of activity, characteristics, and composition of the radioactive material have not changed; and
 - (3) Cite the contract number on which the prior notification was submitted .
- (c) All items, parts, or subassemblies which contain radioactive materials in which the specific activity is greater than 0.002 microcuries per gram or activity per item equals or exceeds 0.01 microcuries, and all containers in which such items, parts or subassemblies are delivered to JPL or the Government shall be clearly marked and labeled as required by the latest revision of MIL-STD 129 in effect on the date of the Contract.
- (d) This Article, including this paragraph (d), shall be inserted in all subcontracts for radioactive materials meeting the criteria in paragraph (a) of this Article.

ARTICLE GP-26. CLEAN AIR AND WATER

(This Article does not apply to small purchases as defined in FAR Part 13 or to the use of facilities outside the United States. The Article applies to the Contract if it exceeds \$100,000 [or \$100,000 in one year for an indefinite delivery contract], or the facility to be used has been the subject of a conviction under the Air Act or Water Act and is listed by the EPA as a violating facility, and the acquisition is not otherwise exempt under FAR 23.104.)

ARTICLE GP-27. LIMITATION OF LIABILITY

- (a) Except as provided in paragraphs (b) and (c) below, and except for remedies expressly provided elsewhere in this Contract, the Contractor shall not be liable for loss of or damage to property of the Government (excluding the supplies delivered under this Contract) that (i) occurs after acceptance of the supplies delivered under this Contract and (ii) results from any defects or deficiencies in the supplies.
- (b) The limitation of liability under paragraph (a) above shall not apply when a defect or deficiency in, or the acceptance of, the supplies results from willful misconduct or lack of good faith on the part of any of the Contractor's managerial personnel. - (d) The Contractor shall include this Article, including this paragraph (d), supplemented as necessary to reflect the relationship of the contracting parties, in all subcontracts.

ARTICLE GP-28. CROSS-WAIVERS OF LIABILITY FOR SPACE SHUTTLE SERVICES, NASA EXPENDABLE LAUNCH VEHICLE (ELV) LAUNCHES, AND FOR SPACE STATION ACTIVITIES

(This Article is applicable if the Contract value is \$100,000 or more.)

The Contractor understands that the work performed under this Contract may be in support of "Protected Space Operations" as defined in the three paragraphs (b)(5) under Part A, Part B, and Part C below, and therefore agrees to all three cross waiver provisions set forth below. The Contractor shall incorporate this Article into subcontracts which are for \$100,000 or more.

PART A. CROSS-WAIVER OF LIABILITY FOR SPACE SHUTTLE SERVICES

- (a) As prescribed by regulation (14 C.F.R. Part 1266), NASA agreements involving Space Shuttle services are required to contain broad cross-waivers of liability among the parties and the parties' related entities to encourage participation in space exploration, use, and investment. The purpose of this provision is to extend this cross-waiver requirement to contractors and subcontractors as related entities of NASA. This cross-waiver of liability shall be broadly construed to achieve the objective of encouraging participation in space activities.
- (b) As used in this provision, the term:
- (1) "Contractors" and "Subcontractors" include suppliers of any kind.
 - (2) "Damage" means:
 - (A) Bodily injury to, or other impairment of health of, or death of, any person;
 - (B) Damage to, loss of, or loss of use of any property;

- (C) Loss of revenue or profits; or
 - (D) Other direct, indirect, or consequential damage;
- (3) "Party" means a person or entity that signs an agreement involving a Space Shuttle service;
 - (4) "Payload" means any property to be flown or used on or in the Space Shuttle; and
 - (5) "Protected Space Operations" means all Space Shuttle and payload activities on Earth, in outer space, or in transit between Earth and outer space performed in furtherance of an agreement involving Space Shuttle services or performed under this Contract. It includes, but is not limited to:
 - (A) Research, design, development, test, manufacture, assembly, integration, operation, or use of the Space Shuttle, transfer vehicles, payloads, related support equipment, and facilities and services;
 - (B) All activities related to ground support, test, training, simulation, or guidance and control equipment and related facilities or services.

(NOTE: "Protected Space Operations" excludes activities on Earth which are conducted on return from space to develop further a payload's product or process except when such development is for Space Shuttle-related activities necessary to implement an agreement involving Space Shuttle services or to perform this Contract.)
 - (6) "Related entity" means:
 - (A) A party's contractors or subcontractors at any tier;
 - (B) A party's users or customers at any tier; or
 - (C) A contractor or subcontractor of a party's user or customer at any tier.
- (c) (1) The Contractor agrees to a waiver of liability pursuant to which the Contractor waives all claims against any of the entities or persons listed in paragraphs (c)(1)(A) through (c)(1)(C) of this provision based on damage arising out of Protected Space Operations. This waiver shall apply only if the person, entity, or property causing the damage is involved in Protected Space Operations and the person, entity, or property damaged is damaged by virtue of its involvement in Protected Space Operations. The waiver shall apply to any claims for damage, whatever the legal basis for such claims, including but not limited to delict (a term used in civil law countries to denote a class of cases similar to tort) and tort (including negligence of every degree and kind) and contract, against:
 - (A) Any party other than the Government;
 - (B) A related entity of any party other than the Government; and
 - (C) The employees of any of the entities identified in (c)(1)(A) and (c)(1)(B) above.
 - (2) The Contractor agrees to extend the waiver of liability as set forth in paragraph (c)(1) of this provision to subcontractors at any tier by requiring them, by contract or otherwise, to agree to waive all claims against the entities or persons identified in paragraphs (c)(1)(A) through (c)(1)(C) of this provision.
 - (3) For avoidance of doubt, this cross-waiver includes a cross-waiver of liability arising from the Convention on International Liability for Damage Caused by Space Objects, (March 29, 1972, 24 United States Treaties and other International Agreements (U.S.T.) 2389, Treaties and Other International Acts Series (T.I.A.S.) - (a) Overtime Requirements. No Contractor or subcontractor contracting for any part of the Contract work which may require or involve the employment of laborers or mechanics (see FAR 22.300 and any corresponding implementing or supplementing provisions in the NFS) shall require or permit any such laborers or mechanics in any workweek in which the individual is employed on such work to work in excess of 40 hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than 1-1/2 times the basic rate of pay for all hours worked in excess of 40 hours in such workweek.
- (b) Violation, Liability for Unpaid Wages, and Liquidated Damages. In the event of any violation of the provisions set forth in paragraph (a) of this Article, the Contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such Contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic employed in violation of the provisions set forth in paragraph (a) of this Article in the sum of \$10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of 40 hours without payment of the overtime wages required by provisions set forth in paragraph (a) of this Article.

- (2) Cargoes carried in vessels of the Panama Canal Commission or as required or authorized by law or treaty;
 - (3) Ocean transportation between foreign countries of supplies purchased with foreign currencies made available, or derived from funds that are made available, under the Foreign Assistance Act of 1961 (22 U.S.C. 2353); and

- (1) "Jewel bearing," as used in this Article, means a piece of synthetic corundum (sapphire or ruby) of any shape, except a phonograph needle, that has one or more polished surfaces to provide supporting surfaces or low-friction contact areas for revolving, oscillating, or sliding parts in an instrument, mechanism, subassembly, or part. A jewel bearing may be unmounted or may be mounted into a ring or bushing. Examples are watch holes - olive, watch holes - straight, pallet stones, roller jewels (jewel pins), endstones (caps), vee (cone) jewels, instrument rings, cups, and double cups.

 - (4) "Related item," as used in this Article, means a piece of synthetic corundum (sapphire or ruby), other than a jewel bearing, that (i) is made from material produced by the Verneuil flame fusion process, (ii) has a geometric shape up to a maximum of one inch in any dimension, (iii) requires extremely close tolerances and highly polished surfaces identical to those involved in manufacturing jewel bearings, and (iv) is either mounted in a retaining or supporting structure or unmounted. Examples are window, nozzle, guide, knife edge, knife edge plate, insulator domed pin, slotted insulator, sphere, ring gauge, spacer, disc, valve seat, rod, vee groove, D-shaped insulator, and notched plate.
- (c) All jewel bearings and related items required for the supplies to be furnished under this Contract (or an equal quantity of the same type, size, and tolerances) shall be acquired from the following sources: jewel bearings from the Plant, unless the Plant declines or rejects the order; and related items from domestic manufacturers, including the Plant, if the items can be obtained from those sources. - (d) At its option, the Plant may decline or reject all or part of the Contractor's or subcontractor's order. If the order is declined or rejected, the Contractor shall notify JPL promptly in writing, enclosing a copy of the rejection notice. Unless the declination or rejection has been caused by current excessive and overdue Contractor indebtedness to the Plant as determined by the Plant, JPL shall evaluate the impact and make an equitable adjustment in the Contract amount, in the delivery schedule, or in both, if one is warranted. This procedure shall also apply to orders for related items rejected by any other domestic manufacturer.

 - (B) Form, fit, and function data delivered under this Contract;
 - (C) Data delivered under this Contract (except for restricted computer software) that constitute manuals or instructional and training material for installation, operation, or routine maintenance and repair of items, components, or processes delivered or furnished for use under this Contract; and
 - (D) All other data delivered under this Contract unless provided otherwise for limited rights data or restricted computer software in accordance with paragraph (g) of this Article.
- (2) The Contractor shall have the right to:
 - (A) Use, release to others, reproduce, distribute, or publish any data first produced or specifically used by the Contractor in the performance of this Contract, unless provided otherwise in paragraph (d) of this Article;
 - (B) Protect from unauthorized disclosure and use those data which are limited rights data or restricted computer software to the extent provided in paragraph (g) of this Article;
 - (C) Substantiate use of, add or correct limited rights, restricted rights, or copyright or mask work notices and to take other appropriate action, in accordance with paragraphs (e) and (f) of this Article; and

(c) Copyright and Mask Work:

- (1) Data First Produced in the Performance of This Contract.
 - (A) Unless provided otherwise in paragraph (d) of this Article, the Contractor may establish, without prior approval of the Contracting Officer, claim to copyright subsisting in scientific and technical articles based on or containing data first produced in the performance of this Contract and published in academic, technical or professional journals, symposia proceedings or similar works. The prior, express written permission of the Contracting Officer through JPL is required to establish claim to copyright subsisting in all other data first produced in the performance of this Contract.

When claim to copyright is made, the Contractor shall affix the applicable copyright or notices of 17 U.S.C. 401 or 402 and acknowledgment of Government sponsorship (including the Prime Contract number) to the data when such data are delivered to JPL, as well as when the data are published or deposited for registration as a published work in the U.S. Copyright Office. (Acknowledgment shall include a statement that "This work was performed for the Jet Propulsion Laboratory, California Institute of Technology, sponsored by the United States Government under Contract NAS7-1260.") For data other than computer software, the Contractor grants to the Government, and in support and furtherance of its Government contract obligations, the Institute, and others acting on their behalf, a paid-up, nonexclusive, irrevocable worldwide license in such copyrighted data to reproduce, prepare derivative works, distribute copies to the public, and perform publicly and display publicly by or on behalf of the Government. For computer software, the Contractor grants to the Government, and in support and furtherance of its Government contract obligations, the Institute, and others acting on their behalf, a paid-up, nonexclusive, irrevocable worldwide license in such copyrighted computer software to reproduce, prepare derivative works, and perform publicly and display publicly by or on behalf of the Government.

(B) If the Government desires to obtain Copyright in computer software first produced in the performance of this contract for which permission to copyright has not been granted to the Contractor as set forth in subdivision (c)(1)(A) of this Article, the Contracting Officer or the Institute may direct the Contractor to establish, or authorize the establishment of, claim to copyright in said computer software and to assign, or obtain the assignment of, such copyright to the Government or its designated assignee.

(2) Data Not First Produced in the Performance of This Contract. The Contractor shall not, without prior written permission of JPL, incorporate in data delivered under this Contract any data not first produced in the performance of this Contract and which contains the copyright or mask work notice of 17 U.S.C. 401 or 402 or 909, unless the Contractor identifies such data and grants to the Government, and in support and furtherance of its Government contract obligations, the Institute, or acquires on their behalf, a license of the same scope as set forth in subparagraph (c)(1) of this Article; provided, however, that if such data are computer software, the Contractor grants to the Government and in support and furtherance of its Government contract obligations, the Institute, or acquires on their behalf, a paid up nonexclusive irrevocable worldwide license as set forth in subparagraph (g)(3) of this Article.

(3) Removal of Copyright and Mask Work Notices. JPL agrees not to remove any copyright or mask work notices placed on data pursuant to this paragraph (c), and to include such notices on all reproductions of the data.

(d) Release, Publication and Use of Data.

(1) The Contractor shall have the right to use, release to others, reproduce, distribute, or publish any data first produced or specifically used by the Contractor in the performance of this Contract, except to the extent such data may be subject to the Federal export control or national security laws or regulations, or unless otherwise provided in this paragraph of this Article or expressly set forth in this Contract.

(2) The Contractor agrees that to the extent it receives or is given access to data necessary for the performance of this Contract which contain restrictive markings, the Contractor shall treat the data in accordance with such markings unless otherwise specifically authorized in writing by JPL.

(3) The Contractor agrees not to establish claim to copyright or publish or release to others any computer software first produced in the performance of this Contract without the Contracting Officer's prior written permission through JPL.

(e) Unauthorized Marking of Data.

(1) Notwithstanding any other provisions of this Contract concerning inspection or acceptance, if any data delivered under this Contract are marked with the notices specified in subparagraph (g)(2) or (g)(3) of this Article and use of such is not authorized by this Article, or if such data bears any other restrictive or limiting markings not authorized by this Contract, JPL may at any time either return the data to the Contractor, or cancel or ignore the markings. However, the following procedures shall apply prior to canceling or ignoring the markings:

- (A) JPL shall make written inquiry to the Contractor affording the Contractor 30 days from receipt of the inquiry to provide written justification to substantiate the propriety of the markings;
 - (B) If the Contractor fails to respond or fails to provide written justification to substantiate the propriety of the markings within the 30-day period (or a longer time not exceeding 90 days approved in writing by the Contracting Officer through JPL for good cause shown), the Government or JPL shall have the right to cancel or ignore the markings at any time after said period and the data will no longer be made subject to any disclosure prohibitions.
 - (C) If the Contractor provides written justification to substantiate the propriety of the markings within the period set in subdivision (e)(1)(A) of this Article, the Contracting Officer through JPL shall consider such written justification and determine whether or not the markings are to be canceled or ignored. If the Contracting Officer through JPL determines that the markings are authorized, the Contractor shall be so notified in writing. If the Contracting Officer through JPL determines, with concurrence of NASA, that the markings are not authorized, the Contracting Officer through JPL shall furnish the Contractor a written determination, which determination shall become the final Government decision regarding the appropriateness of the markings unless the Contractor files suit in a court of competent jurisdiction within 90 days of receipt of the Contracting Officer's decision. The Government and JPL shall continue to abide by the markings under this subdivision (e)(1)(C) until final resolution of the matter either by the Contracting Officer's determination becoming final (in which instance the Government or JPL shall thereafter have the right to cancel or ignore the markings at any time and the data will no longer be made subject to any disclosure prohibitions), or by final disposition of the matter by court decision if suit is filed.
- (2) The time limits in the procedures set forth in subparagraph (e)(1) of this Article may be modified in accordance with NASA regulations implementing the Freedom of Information Act (5 U.S.C. 552) if necessary to respond to a request thereunder.
 - (3) This paragraph (e) does not apply if this Contract is for a major system or for support of a major system by a civilian agency other than NASA and the U.S. Coast Guard agency subject to the provisions of Title III of the Federal Property and Administrative Services Act of 1949.
 - (4) (RESERVED)
- (f) Omitted or Incorrect Markings.
- (1) Data delivered to the Government or JPL without either the limited rights or restricted rights notice as authorized by paragraph (g) of this Article, or the copyright notice required by paragraph (c) of this Article, shall be deemed to have been furnished with unlimited rights, and the Government and the Institute assume no liability for the disclosure, use, or reproduction of such data. However, to the extent the data has not been disclosed without restriction outside the Government or JPL, the Contractor may request, within six months (or longer time approved by JPL for good cause shown) after delivery of such data, permission to have notices placed on qualifying data at the Contractor's expense, and JPL may agree to do so if the Contractor:
 - (A) Identifies the data to which the omitted notice is to be applied;
 - (B) Demonstrates that the omission of the notice was inadvertent;
 - (C) Establishes that the use of the proposed notice is authorized; and
 - (D) Acknowledges that the Government and the Institute have no liability with respect to the disclosure, use, or reproduction of any such data made prior to the addition of the notice or resulting from the omission of the notice.
 - (2) JPL may also:
 - (A) Permit correction at the Contractor's expense of incorrect notices if the Contractor identifies the data on which correction of the notice is to be made, and demonstrates that the correct notice is authorized; or

(B) Correct any incorrect notices.

(g) Protection of Limited Rights Data and Restricted Computer Software.

(1) When data other than that listed in subdivisions (b)(1)(A), (B), and (C) of this Article are specified to be delivered under this Contract and qualify as either limited rights data or restricted computer software, if the Contractor desires to continue protection of such data, the Contractor shall withhold such data and not furnish them to JPL under this Contract. As a condition to this withholding, the Contractor shall identify the data being withheld and furnish form, fit, and function data in lieu thereof. Limited rights data that are formatted as a computer data base for delivery to JPL are to be treated as limited rights data and not restricted computer software.

(2) (RESERVED)

(3) (RESERVED)

(h) Subcontracting. The Contractor has the responsibility to obtain from its subcontractors all data and rights therein necessary to fulfill the Contractor's obligations to the Government and the Institute under this Contract. If a subcontractor refuses to accept terms affording the Government or the Institute such rights, the Contractor shall promptly bring such refusal to the attention of JPL and not proceed with subcontract award without further authorization.

(i) Relationship to Patents. Nothing contained in this Article shall imply a license to the Government or the Institute under any patent or be construed as affecting the scope of any license or other right otherwise granted to the Government or the Institute.

(j) Inspection of Data Withheld. The Contractor agrees, except as may be otherwise specified in this Contract for specific data items listed as not subject to this paragraph, that the Contracting Officer or an authorized representative may, up to three years after acceptance of all items to be delivered under this Contract, inspect at the Contractor's facility any data withheld pursuant to subparagraph (g)(1) of this Article, for purposes of verifying the Contractor's assertion pertaining to the limited rights or restricted rights status of the data or for evaluating work performance. Where the first-tier subcontractor whose data are to be inspected demonstrates to the Contracting Officer that there would be a possible conflict of interest if the inspection were made by a particular representative, the Contracting Officer shall designate an alternate inspector.

ARTICLE GP-52. EXISTING COMMERCIAL COMPUTER SOFTWARE - LICENSING

(This Article is applicable, with paragraph (h) of the Article entitled "Rights in Data - General," to the acquisition of any existing commercial computer software under this Contract.)

(a) Any delivered commercial computer software (including documentation thereof) developed at private expense and claimed as proprietary shall be subject to the restricted rights in paragraph (d) below. Where the Vendor/ Contractor proposes its standard commercial software license, only those applicable portions thereof which comply with the other provisions of this Contract, Federal laws, FAR and NFS, including the restricted rights in paragraph (d) below, are incorporated into and made a part of this Purchase Order/Contract.

(b) Although the Vendor/Contractor might not propose its standard commercial software license until after this Purchase Order/Contract has been issued, or at or after the time the computer software is delivered, such license shall nevertheless be deemed incorporated into and made a part of this Purchase Order/Contract under the same terms and conditions as in paragraph (a) above. For purposes of receiving updates, correction notices, consultation, and similar activities on the computer software, any authorized user may acknowledge receipt of a registration form or card and return it directly to the Vendor/Contractor; however, such signing shall not add to or alter any of the terms and conditions of this Article or the Purchase Order/Contract into which this Article is incorporated.

(c) The Vendor's/Contractor's acceptance is expressly limited to the terms and conditions of this Purchase Order/Contract. If the specified computer software is shipped or delivered to JPL or NASA, it shall be understood that the Vendor/Contractor has unconditionally accepted the terms and conditions set forth in this Article, and that the terms and conditions of this Purchase Order/Contract (including the incorporated license) constitute the entire agreement between the parties concerning rights in the computer software.

(d) The following restricted rights shall apply:

- (1) The commercial computer software may not be used, reproduced, or disclosed by the Institute or the Government except as provided below or otherwise expressly stated in the Purchase Order/Contract.
- (2) The commercial computer software may be:
 - (A) Used, or copied for use, in or with any computer owned or leased by, or on behalf of, the Government, or the Institute in support and furtherance of its Government contract obligations; provided, the software is not used, nor copied for use, in or with more than one computer simultaneously, unless otherwise permitted by the license incorporated under paragraphs (a) or (b) above;
 - (B) Reproduced for safekeeping (archives) or backup purposes;
 - (C) Modified, adapted, or combined with other computer software, provided that the modified, combined, or adapted portions of the derivative software incorporating restricted computer software shall be subject to the same restricted rights; and
 - (D) Disclosed and reproduced for use by Government or Institute contractors or their subcontractors in accordance with the restricted rights in subdivisions (A), (B), and (C) above; provided they have the Government's or the Institute's permission to use the computer software and have also agreed to protect the computer software from unauthorized use and disclosure.
- (3) If the incorporated Vendor's/Contractor's software license contains provisions or rights that are less restrictive than the restricted rights in subparagraph (d)(2) above, then the less restrictive provisions or rights shall prevail.
- (4) If the computer software is published, copyrighted computer software, it is licensed to the Government, and in support and furtherance of its Government contract obligations, the Institute, without disclosure prohibitions, with the rights in subparagraphs (d)(2) and (3) above.
- (5) The computer software may be marked with any appropriate proprietary notice that is consistent with the rights in subparagraphs (d)(2), (3), and (4) above.

ARTICLE GP-53. WARRANTY FOR COMMERCIAL COMPUTER SOFTWARE

(This Article is applicable if commercial computer software is being purchased under this Contract.)

Contractor warrants that it has the right to sell, license, or transfer the license for the software furnished to customer under this Contract in accordance with the terms of this Contract.

(This Article applies if the contract is in support of Space Station Freedom Program activities which may involve transfer of technical data subject to the International Traffic in Arms Regulations, 22 CFR parts 120 through 130 (Subchapter M) in accordance with the "Space Station Level I Directive - Subject: Space Station Technology Transfer Control - dated March 21, 1989.")

- (a) In the cooperative Space Station Freedom program, NASA has the authority to provide to the international partners all information necessary to implement the multilateral Space Station Intergovernmental Agreement and the Space Station Memoranda of Understanding. NASA is committed under these Space Station agreements to provide its international Space Station partners with certain technical data which are subject to the U.S. export control laws and regulations. NASA will have obtained any necessary approvals from the Department of State for the transfer of any such technical data. Space Station contractors, acting as agents of NASA under the specific written direction of the Contracting Officer, or designated representative, require no other separate approval under the International Traffic in Arms Regulations (ITAR) to transfer such data.

- (b) The Contractor agrees, when specifically directed in writing by the JPL Negotiator or an authorized JPL representative under this Contract, to transfer identified technical data to a named foreign recipient, in the manner directed. No export control marking should be affixed to the data unless so directed. If directed, the text of the marking to be affixed will be furnished by the JPL Negotiator or an authorized JPL representative under this Contract.
- (c) It should be emphasized that the transfer is limited solely to those technical data which NASA specifically identifies and directs the Contractor to transfer in accordance with paragraph (b), above, and that all other transfers of technical data to foreign entities are subject to the requirements of the U.S. export control laws and regulations.
- (d) Nothing contained in this Article affects the allocation of technical data rights between NASA and the Contractor or any subcontractors as set forth in the "Rights in Data" Article of this Contract, nor the protection of any proprietary technical data which may be available to the Contractor or any subcontractor under that Article.
- (e) The Contractor agrees to include this Article, including this paragraph (e), in all subcontracts hereunder, appropriately modified to reflect the relationship of the parties.

ARTICLE GP-55. NOTICE AND ASSISTANCE REGARDING PATENT AND COPYRIGHT INFRINGEMENT

(The provisions of this Article shall be applicable only if the amount of this Contract exceeds \$25,000.)

- (a) The Contractor shall report to the Contracting Officer and JPL, promptly and in reasonable written detail, each notice or claim of patent or copyright infringement based on the performance of this Contract of which the Contractor has knowledge.
- (b) In the event of any claim or suit against the Government on account of any alleged patent or copyright infringement arising out of the performance of this Contract or out of the use of any supplies furnished or work or services performed under this Contract, the Contractor shall furnish to the Government, when requested by the Contracting Officer, all evidence and information in possession of the Contractor pertaining to such suit or claim. Such evidence and information shall be furnished at the expense of the Government except where the Contractor has agreed to indemnify the Government.
- (c) The Contractor agrees to include, and require inclusion of, this Article in all subcontracts at any tier for supplies or services (including construction and architect-engineer subcontracts and those for material, supplies, models, samples, or design or testing services) expected to exceed \$25,000.

ARTICLE GP-56. AUTHORIZATION AND CONSENT

- (a) The Government authorizes and consents to all use and manufacture of any invention described in and covered by a United States patent in the performance of the Prime Contract or any subcontract at any tier.
- (b) The Contractor agrees to include, and require inclusion of, this Article, suitably modified to identify the parties, in all subcontracts at any tier for supplies or services (including construction, architect-engineer services, and materials, supplies, models, samples, and design or testing services expected to exceed \$25,000); however, omission of this Article from any subcontract, under or over \$25,000, does not affect this authorization and consent.

ARTICLE GP-57. NEW MATERIAL

Unless this Contract specifies otherwise, the Contractor represents that the supplies and components are new, including recycled (not used or reconditioned) and are not of such age or so deteriorated as to impair their usefulness or safety. If the Contractor believes that furnishing used or reconditioned supplies or components will be in JPL's interest, the Contractor shall so notify JPL in writing. The Contractor's notice shall include the reasons for the request along with a proposal for any consideration to JPL if JPL authorizes the use of used or reconditioned supplies or components.

RELEASE OF INFORMATION

This Contract with the Jet Propulsion Laboratory (JPL) constitutes a subcontract under a prime contract between the California Institute of Technology and the National Aeronautics and Space Administration (NASA). It is NASA's policy to provide the widest practical dissemination of information on all of its activities. Since 90% of NASA's research and development effort is performed by private industry, contractors and subcontractors have played a large role in this process.

In accordance with this policy, the Contractor may want to issue press releases or plan publicity and advertising from time to time, and the Contractor will be expected to respond to queries from information media.

Close coordination in all of these matters is required, and JPL requires that all materials (e.g., news and photo releases, exhibit copy, motion picture scripts, advertising copy) directly related to the Contractor's work with and for JPL be reviewed by JPL for technical accuracy prior to issuance or use.

To expedite this review, the Contractor shall send the materials to the JPL Public Information Office, mail stop 180-200, stating the Contractor's deadlines and referencing this Contract number.

In the event this Contract is a cost-reimbursement type contract, review by JPL shall not constitute approval for reimbursement of expenditures made in connection with publicity or advertising releases. Any such expenditures remain subject to applicable cost principles.

Nothing contained herein shall be deemed to change existing requirements relating to the release of classified information.

ASBESTOS NOTIFICATION

The Jet Propulsion Laboratory is committed to providing a safe and healthy work environment for all personnel.

In the past several years, the Laboratory management, working through the JPL Environmental Affairs and Chemical Controls Office (EACCO) and Facilities Division, has had an on-going program of asbestos identification and control. This program has included air monitoring and training for members of the Facilities and Maintenance staff.

Most of the asbestos located at JPL/Pasadena and JPL/Edwards is in restricted access areas such as mechanical rooms, boiler rooms, and attics. It is in good condition and does not pose any hazard during normal operations.

Some of the buildings at JPL/Pasadena have extensive sprayed fireproofing above the ceilings. These buildings at the Oak Grove Site include: 167, 168, 169, 179, 180, 183, 186, 230, 238, 264, 291 and Foothill Buildings 502, 506 and 507.

The EACCO staff has taken numerous air samples in these buildings. Visual inspections and air samples indicate that airborne asbestos levels in the buildings are much lower than those in industrial workplaces where serious adverse health effects have been observed. Levels in the buildings are not significantly different from levels outside.

Asbestos-containing materials pose no threat to your health unless the fibers become airborne. Any contractor maintenance/construction/renovation activity involving intentional or accidental contact with friable materials can release fibers. Therefore, it is important not to disturb the asbestos materials.

General written procedures and handling restrictions necessary to prevent disturbance have been provided to JPL and contractor personnel. Only authorized and properly trained personnel are permitted to perform any work which may disturb asbestos materials. All contractor operations performed in areas where asbestos is present must be reviewed by EACCO prior to initiation of activities, and then tested and released by EACCO after completion of contractor activities but prior to occupancy.

Pursuant to the California Health and Safety Code (Chapter 10.4, Section 25915), each employee has the right to review all reports about surveys, bulk sampling and air sampling. These reports are available for review during normal business hours at Building 125, Room 211. To make an appointment to review these documents, contact the Chemical Controls Group at ext. 4-1771.

If you have questions regarding operational procedures for contractor activities, contact EACCO at ext. 4-1771.

**NOTIFICATION TO PROSPECTIVE CONTRACTORS OF JPL'S
ETHICS POLICIES AND ANTI-KICKBACK HOT LINE**

JPL is committed to conducting its business in accordance with the highest standards of ethics and integrity. In this regard, we have an on-going orientation and training program to assure that every JPL employee is aware of this commitment and their individual responsibility for compliance. We must rely on the personal integrity of our employees and the integrity and cooperation of our suppliers and contractors to make sure that these high standards are maintained.

The policies that implement our standards of business conduct state clearly that no employee may solicit or accept any "kickback," gift, gratuity, entertainment, compensation, or favors of any kind from any supplier/contractor or prospective supplier/contractor to JPL. Our policies make it clear that these standards not only apply to procurement personnel but also to employees in all functions and at all levels.

The purpose of this letter is to make sure that you and your employees are aware of our policies, and that together we can achieve and maintain excellence in the conduct of our business relationships.

In the unlikely event that any JPL employee ever attempts to solicit a "kickback," please notify us immediately. JPL has established an Anti-Kickback Hot Line number, **(818) 354-9999**. Please feel free to call this number collect. The information you provide will be handled with confidentiality, investigated thoroughly, and appropriate action taken.

Thank you for your cooperation and support in this important matter.
